Comments and Views please!

We need your help in ensuring the site is kept in the best condition we can make it for all users. We would welcome any comments and views you have. Please use the form on the next page to send us this information.

In helping us to focus on the issues, can you please construct your views around the headings in the following table. If you would prefer to complete only specific sections then please do not feel obliged to complete the rest of the table, however the more feedback we can get about the whole of the site will help us deliver a better service. Please try and avoid writing just Yes or No in the reply sections as the more detail you can provide will enable us to improve the site for all users:

Question	Reply
How did you feel registration on the site went?	
Was all the supporting text on (and linked from) the Homepage adequate? What was missing?	
Did you have any technical problems? If yes please describe with as much detail as possible.	
Did the FAQs answer your queries?	
Did the whole site meet your expectations? What are its strengths/weaknesses?	
What other data would you like to see included on the site?	
Any other comments (please describe as fully as possible)?	

Many thanks for completing this form. Could you now send it, preferably electronic please via e-mail, to the contacts shown on the 'Feedback' area of the site.

You may find that some aspects of the site will alter from time to time. This will be because we will be changing and improving various areas based on the feedback you give us! If the changes are anything significant we will publish it under 'What's New' on the homepage or contact you direct via e-mail.

On behalf of the Plymouth Informed Team can I thank you for your patience and contribution in helping us to develop a truly valuable tool for all interested in Plymouth.
